

Become a Legislator!

Virginia needs future legislative leaders! Remember, you must be at least 21 years old to run for office. So although you may be too young now, it is never too early to plan your campaign! That means telling as many people as possible about yourself and your ideas. Campaign buttons are a popular way of getting your name known to voters. Below are some samples to color. Or use the two blank circles to make your own and then hold an “election” in your classroom. Everyone gets to vote for one senator and one delegate. Good luck!
